

# CLOGGED UREA/DEF FILTERS CAUSE POWER LOSS

GET BACK UP TO SPEED WITH LUBER-FINER FILTERS

## THE NEW NORMAL FOR UREA/DEF FILTERS

Fleets are figuring out that the new normal for replacing Urea/DEF filters is on an annual basis, or at 120,000 to 150,000 miles.

Symptoms of clogged Urea/DEF filters include:

- Power Loss
- Failing Passive & Active Regeneration
- Pungent Diesel Odor
- Increased Fuel Consumption
